

Electronic Job

SPECIFICATIONS

SERVICES INCLUDED IN QUOTE

This price quote is based on **PDF files supplied** and includes the following services:

- All disks scanned for viruses
- Original files copied to network file server
- Preflight of all job elements
- Page imposition
- Output of digital proof
- Digital archival of finished job elements

YOU MUST PROVIDE

In order to output your files, we require the following:

- Disks clearly labeled with customer name and job description with directories attached
- All pages provided in usable **PDF format**
- A complete, current hardcopy of text
- A current color copy of cover or dust jacket
- Completed *Electronic Prepress Information Sheet*.

UPCHARGES OCCUR:

Prices and scheduling are based on specifications provided when job was quoted. We assume that all your digital files are set up according to our specifications. In the event that they are not, the following upcharges will apply:

- Excessive application files = \$15.00 per file
(We allow one application file per 100 pages when figuring the number of excessive application files.)
- Recurve Halftones = \$2.00 per image
- Scan Halftones = \$15.00 for first image, \$10.00 each add'l.
- Scan 4-Color = \$45.00 for first image, \$25.00 each add'l.
- Documents set up at incorrect size = \$25.00 each file
- Incorrect color mode (RGB, Indexed) = \$2.00 per image
- Incorrect spine size = \$25.00
- Upcharges for typesetting, rebuilding, color and/or bleed problems are calculated on a per job basis.

YOUR JOB WILL BE PLACED ON HOLD

Jobs are pre-flighted shortly after arriving at Bang Printing and will not enter into production for any of the following reasons:

- PDF files do not have all fonts embedded
- PDF files are missing graphics or bleeds
- PDF files contain RGB, low-res, or improper halftone curves
- Hardcopy is missing or not current
- Elements differ from specifications provided when the quote was prepared (page size, page count, ink color, etc.)

INFORMATION AVAILABLE

Downloadable PDF file creation packets, company information, forms, and links are available on our website. Visit us on the web at www.bangprinting.com

IN-HOUSE SCANNING

Bang Printing can provide high quality scans to be placed before PDF files are generated.

- Scans will be provided on a CD with a hardcopy proof. Customer will place the images and create PDF files.
- Services include scanning slides, transparencies, photos, artwork, line art, or printed matter.
- Scanning pre-printed materials which contain a halftone dot will produce a moiré. The scan may have to be blurred slightly to lessen the visibility of a moiré.
- Extensive clean up, color correction, deletions, or additions will incur additional charges.

HALFTONE CURVES

High quality halftone printing requires highlight, shadow and midtones to be adjusted before they are embedded in the PDF file. Our halftone curve specifications are as follows:

Sheetfed Presses: Uncoated Stock (133 Line Screen):
3% Highlight Dot 90% Shadow Dot

Coated Stock (150 Line Screen):
3% Highlight Dot 95% Shadow Dot

Matte Stock (150 Line Screen):
3% Highlight Dot 92% Shadow Dot

Web Presses: Uncoated Stock (133 Line Screen):
3% Highlight Dot 90% Shadow Dot
-5% in the Midtones

Matte Stock (133 Line Screen):
3% Highlight Dot 92% Shadow Dot
-5% in the Midtones

ELECTRONIC MEDIA ACCEPTED

We accept the following media types:

- Macintosh or PC floppy disks
- SuperDisk
- 100mb or 250mb Zip Disk
- CD Rom
- DVD Rom

We can also receive your digital files via e-mail or our FTP site. Please contact your salesperson for details. Files must be compressed and clearly identified with a customer name and job description.

DAMAGED OR LOST DISKS

Bang Printing assumes responsibility only for the replacement cost of media damaged or lost after receipt. Please send us a duplicate of files and retain the originals for future use. Bang Printing assumes no responsibility for materials damaged or lost in transit.
